

Globalization Amidst the Deadly Pandemic

How COVID-19 reshaped
connections, economies,
and societies

Icebreaker Question

Think–Pair–Share:

- What comes to mind when you hear 'globalization'?

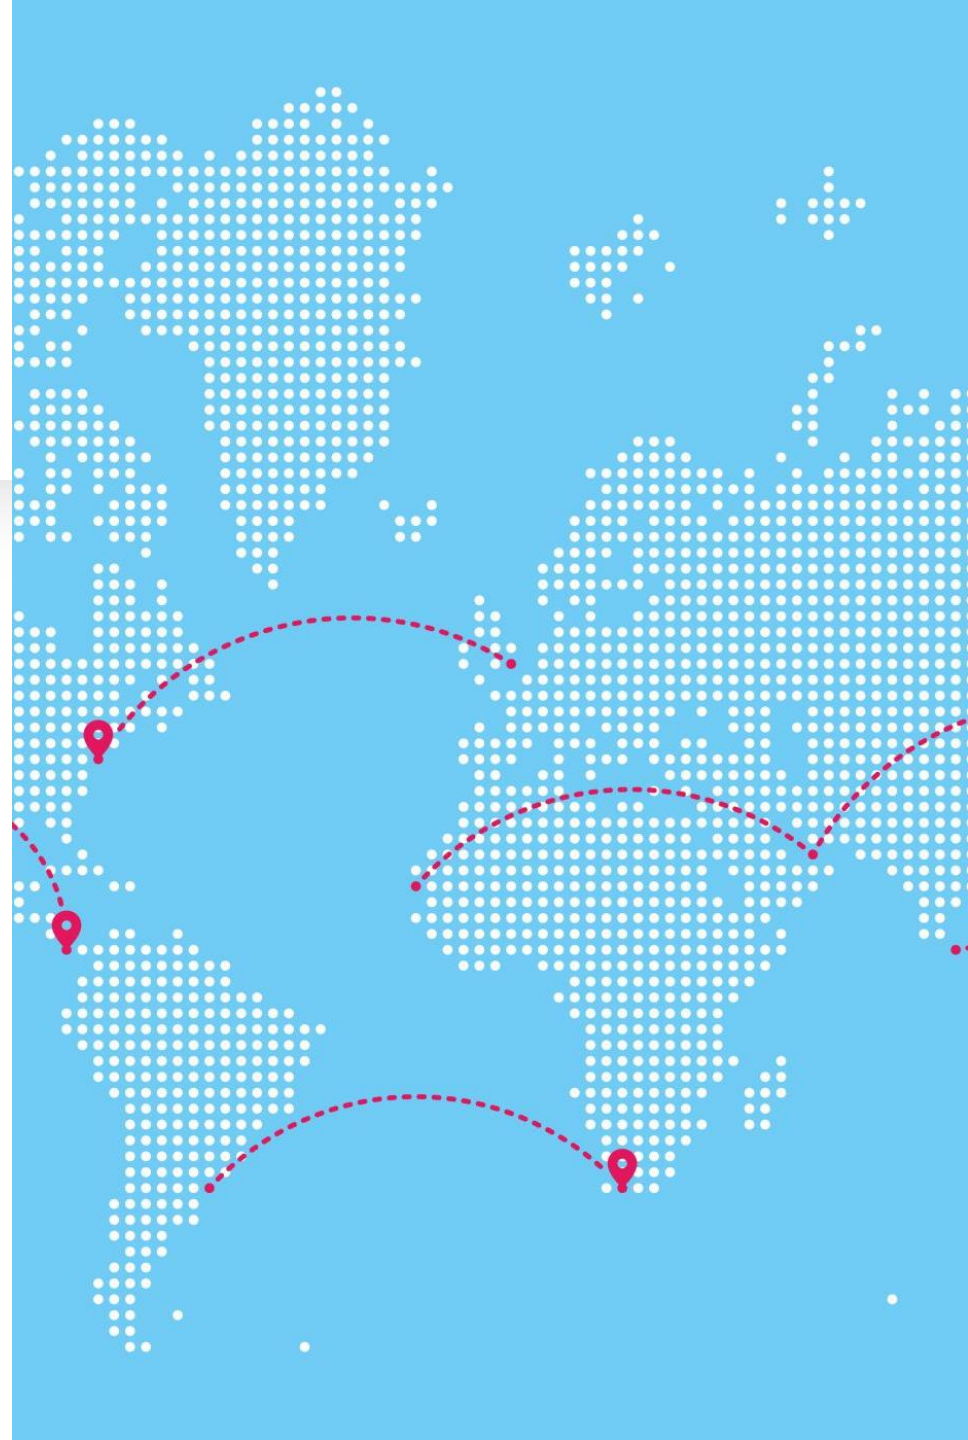

What is Globalization?

Global interconnectedness in
trade, tech, culture, and ideas.

Q; Is globalization more helpful or harmful?

Globalization Before the Pandemic

- Travel, Trade, Tourism boom, Global supply chains.
- Q: “How did globalization affect your family before the pandemic?”

COVID-19 Disruption

How the pandemic exposed strengths and weaknesses of globalization?

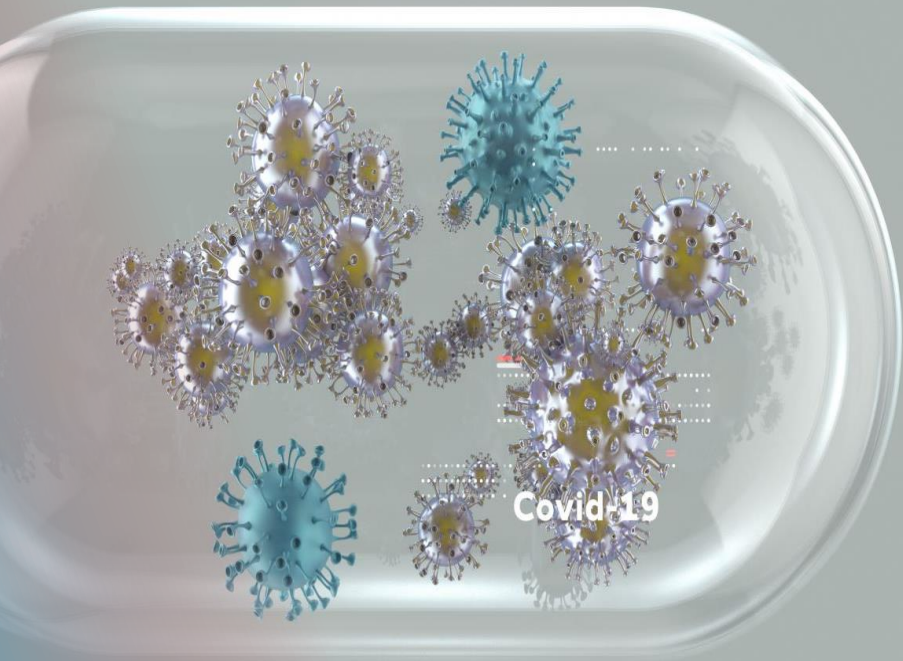

Q: “What aspects of daily life changed for you during the pandemic?”

Positive Impacts

- Vaccine collaboration, online communication, global data sharing.

Q: “Give one global technology that helped you or your school during the pandemic.”

Negative Impacts

- Rapid virus spread, supply chain issues, misinformation.

Q: “How did these negative effects reach the Philippines?”

Education and Globalization

- Rise of online learning, digital divide, global materials.
- Cross-country collaborations of universities
- Inequality caused by lack of gadgets/internet
- Digital divide widened

Health Systems

- WHO guidelines, vaccine sharing, telemedicine.

Q: “Do you think the Philippines was prepared health-wise?”

Global Economy

- E-commerce rise, remote work, tourism decline.
- Shift to digital economy

Globalization is **not entirely good or bad.**

The pandemic exposed:

- Weak systems
- Economic inequalities
- Health vulnerabilities

But it also showed:

- The power of global teamwork
- Technology's ability to bridge borders
- Human resilience

Group Activity Instruction

Title: The Globalization Concept Web During the Pandemic

- **Objective:** To analyze how globalization affected different sectors (Health, Economy, Education, Technology) amidst the deadly pandemic.
- **Group 1&2:** Health
- **Group 3&4:** Economy
- **Group 5&6:** Education
- **Group 7&8:** Technology & Communication
- **Create a Concept Web** on a manila paper or digital slide.
Your concept web must show:
 - The **central idea**: “Globalization Amidst the Deadly Pandemic”
 - Branches representing your assigned sector
 - For each branch, list:
 - **Positive impacts** of globalization
 - **Negative impacts** of globalization
 - **Examples/evidence** related to the pandemic
 - **Connections** to other sectors when applicable
- **Be creative** using colors, arrows, icons, and keywords.
- **Presentation:**
Each group will have **5 minutes** to present their concept web.
Explain:
 - Why the ideas are connected
 - How globalization shaped your assigned sector
 - Evidence or real-life examples (local or international)

Criteria	Description	Points
1. Content Accuracy	Information is correct, relevant, and shows clear understanding of globalization's effects during the pandemic.	40 pts
2. Organization & Clarity of Concept Web	Ideas are logically arranged, connections are clear, concept web is easy to follow.	20 pts
3. Creativity & Visual Presentation	Use of color, shapes, arrows, neatness, and overall visual appeal.	20 pts
4. Presentation Skills	Clarity of explanation, confidence, pacing, audience engagement.	10 pts
5. Teamwork & Participation	All members contribute equally, good collaboration is shown.	10 pts

- **RUBRIC FOR GROUP ACTIVITY**
Total: 100 points

SCORING GUIDE

- **90–100 (Outstanding):** Deep insight, excellent creativity, strong teamwork, exceptional presentation.
- **80–89 (Very Good):** Clear understanding, good design, organized presentation.
- **70–79 (Good):** Adequate content, moderate creativity, some gaps in explanation.
- **60–69 (Needs Improvement):** Limited detail, weak connections, minimal creativity.
- **Below 60 (Poor):** Incomplete, unclear, disorganized, little participation.

The background of the slide features a stylized digital globe. The globe is composed of a grid of orange and yellow dots connected by thin, glowing lines, creating a network-like structure. The globe is set against a dark blue background with faint, out-of-focus city lights and a subtle grid pattern. A bright light source is positioned behind the globe, creating a lens flare effect.

THANK YOU!
